

The TABMA Industry Icon Award recognises an individual or family who has shown continuous commitment and support to the Timber Industry. These individuals or families have helped shape the industry in the past or present and have shown determination to secure our future, whether it be through the expansion of their own business, involvement in various committees and industry bodies, or helping fellow timber and building materials businesses reach their potential or get them through tough times. They are a leader.

# Acknowledgement of Past Trainees and Apprentices

TABMA has a proud history of developing young people within our industry by providing training, mentoring and support as well as career pathways. We would like to acknowledge individuals who have completed a cadetship, traineeship or apprenticeship and are still working in the industry.

**Where you or do you know you know anyone that has been a trainee or cadet in the past and is still in the industry?**
